With Vilsack would be optimal. If not, it would still be good to give 30 minutes.

Hey Jim, see below. Eric Washburn is requesting a 2,4-D meeting b/w Gary Hirshberg and the Administrator next week. What are your thoughts on this?

Brian,

Trying again to see if it might be possible to set up a meeting for Gary Hirshberg and Gina McCarthy so that Gary can discuss 2,4, D with her.

Gary is meeting with Tom Vilsack at 10:00 am on August 26. He will be joined by Dr. Phil Landrigan and a few other 2,4, D experts.

Would Gina have some time that day to meet with Gary, either at EPA or at USDA in conjunction with Vilsack?

Let me know what you think.

Thanks.

Eric
